

UNSW Engineering is pleased to invite your university to The Rising Stars Women in Engineering Workshop this October 2022!

The Rising Stars Women in Engineering Workshop aims to bring together young female professionals in engineering disciplines from around the world, including scholars, researchers and engineers interested in exploring and advancing careers in academia, for scientific and career-oriented discussions relevant to the development of women academic leaders.

Insightful plenary and keynote lectures, panel discussions and mentoring sessions will offer participants a glimpse into an academic career in top universities in Asia.

Stay tuned for updates on applications, program schedules, and more.

We look forward to connecting with you!

 31 October – 2 November 2022

 UNSW Sydney, New South Wales, Australia
